

F POD MEMBER/PLACE RESEARCHER

Each individual street project within a *Squilometre* is designed by a steering group of local residents. We call these groups “Pods”. Facilitated by the Champion, the Pods come together just for the duration of that project (an average of 6-9 months) and make all the decisions about how to celebrate their street. As a Pod member you’re an incredibly important part of the Interwoven family and will have the opportunity to develop a deep connection to your place.
