

G ORAL HISTORY/REMINISCENCE PROVIDER

When we start researching a place we're always thrilled to find residents who are able to share their memories and stories. Our *Squilometre* Champions are trained to make formal Oral History recordings or to facilitate unrecorded reminiscence events that can help Pod members better connect with the history of their place. As an Oral History or Reminiscence provider you will enhance your *Squilometre* project and ensure that your community doesn't lose connection with its own heritage.
