

## L “WEAVERS” – DEVELOPERS OF ONLINE COMMUNITY/IES

The great advantage of offering your help as a “Weaver” is that you can do it from anywhere and design your own commitment. We ask that you join an online community of supporters, attend an online induction and sign an agreement. After that, it’s about staying in touch with Interwoven developments and committing to discuss and share content via your social networking. In this way you could help to find *Squilometre* Champions and kick-starter funding in your area or introduce people to the free #ConnectMe Resource Packs so that more people can re-connect with their own place.
